

9TH ANNUAL GLOBAL GAS VILLAGE SUMMIT (EUROPE)

Can diversification and security of supply
be achieved?

April 14, 15 & 16, 2009
Milan, Italy

The global gas village has become a gateway for gas companies and their clients to discuss latest technologies, growing market trends and innovative gas strategies. The global gas village has a unique concept of using UGS as a market stimulant from which gas strategies are formulated and developed.

Venue:
Le Meridien Gallia
Starwood hotels & resorts
Piazza Duca D'aosta 9
Milan, 20124
Italy

Bronze sponsors:

Tuesday April 14, 2009

Sernano UGS Facility tour
Departure at Le Meridien Gallia at 10:00

After the tour there will be an ice breaker reception
18:00 – 19:30

Wednesday April 15, 2009

Plenary session
Room Mozart

Session I: Can diversification and security of supply be achieved?

Session chairman: Mr. Hans Laat, Director, HP Petroleum
Engineering Services

8.00 - 9.00 Coffee & registration

9.00 – 10.30

Opening

Mr. Gerard Kreeft, Managing Director, EnergyWise

Examining the changing role of storage: strategic vs. market forces

Mr. Gianluca Iannuzzi, Reservoir Engineer, Stogit

Re-examining the demand for storage of natural gas in North-Western Europe: trends 2008-2030

Mr. Madjid Kübler, Managing Director, Team Consult

10.30 – 11.00 Coffee break sponsored by Gas Storage Europe

11.00 - 12.30

Development of infrastructure from national to regional focus

Mr. Wim Groenendijk, Regulatory Affairs & Projects, Gasunie

UNECE study 2010 on underground gas storage in Europe and Central Asia

Mr. Gilles-Henri Joffre, Senior Asset Officer, Storengy

12.30 – 14.00 Lunch

Wednesday April 15, 2009

Session II: Technology and trends

Session chairman: Mr. Niels Dijksman, Reservoir Engineering,
Discipline Lead Groningen Asset, Shell

14.00 - 15.15

Technology challenges for the industry

Mr. Ranald Milne, Baker Fluids

Rivara underground gas storage project: an overview

Mr. Grayson Nash, CEO, Independent Resources

15.15 – 15.45 Coffee break sponsored by Gas Storage Europe

15.45 – 17.00

Valuation of storage and pipelines portfolio: towards realistic storage modeling

Mr. Christian Huurman, Senior Associate, FEA

Settala UGS Project: a perspective

Christan Coti, Reservoir Engineer, Stogit

17.00 – 19.00 Reception

Thursday April 16, 2009

Session III: Projects and trends

Session chairman: Gerard Kreeft, Managing Director, EnergyWise

9.00–10.30

EBN and the Dutch gas hub

Mr. Hans Diekman, Business Advisor, EBN

Storage – competition equals security

Mr. Mark van Stiphout, Administrator, Unit C-2: electricity and gas, DG Energy and Transport

U.S. gas storage review 2009: challenges and developments

Mr. John Varholý, Partner, Troutman Sanders

10.30 – 11.00 Coffee break

11.00–12.30

Can the UK become a UGS gas hub?

Mr. Nicholas Smith, Centrica Storage

Updating the European regulatory roadmap part I

Mr. Max Oosterhuis, Partner Loyens & Loeff

Updating the EU regulatory roadmap part II

Mr. Jean-Marc Leroy, GSE Vice-President,
GSE - Gas Storage Europe

12.30 – 14.00 Lunch

14.00–15.00

Market design problems for selling and operating gas storage

Dr. Alan Holland, Cork University

Closing panel

End of plenary session

Thursday April 16, 2009

Technical session

Room Donizetti

09.00 - 10.30 **Downhole solutions for a challenging marketplace**
Mr. Roberto Nardiello, Senior Geoscientist, Baker Atlas

A new wireless solution to real time reservoir surveillance and in-flow control – applications of interest for underground gas storage
Mr. Brian Champion, General Manager, Expro

10.30 – 11.00 Coffee break

11.00 - 12.30 **Completion technologies for under ground storage**
Mr. Lali Szabo, Baker Oil Tools

Underground gas storages and it's process facilities
Mr. Hans-Günter Behrendt, Managing Director, PSE Engineering

Production chemicals for gas storage applications
Mr. Neil Poynton, Regional Technical Manager, Baker Petrolite

12.30 – 14.00 Lunch

14.00 - 15.00 **Creating value in Underground Gas Storage by novel reservoir engineering techniques**
Ms. Ellen Zijlstra, Senior Reservoir Engineer, Shell

New drilling and completion technology available for UGS
Mr. Udo Lange, Sales Manager, Halliburton

End of technical session
